Ski hire: Discounted ski hire is available from Ski Extreme. Ski Extreme is an independently owned and run family business that prides itself on quality equipment and services for skiers of all levels of experience.

They provide a 10% discount on any hire or purchase to chalet guests. Ski Extreme will either provide a shuttle service to take you from the chalet to the shop or will provide the service at the chalet. I would recommend going to the shop as there is more flexibility in the choice of equipment.

As Ski Extreme hold back equipment for reservations they apply a 10.00 euro reservation deposit per head. To save on unnecessary money transactions I have arranged with Ski Extreme to waive the advance payment of this deposit however if a reservation is not taken then the reservation deposit will be deducted from the chalet security deposit.

If you can indicate on the booking form details of any equipment required and I will forward this to Ski Extreme so that it can be reserved.
